SEW UP THE WINDPIPE

And Save Woman From
Death at Her Own
Hands

Los Angeles, Oct. 14.—Expert surgery saved the life of Mrs. Belle Turner of Peyton, Colo., today after she had completely severed her windpipe with a pair of scissors.

Mrs. Turner was despondent because of ill-health. When she was found in bed at the home of her sister she was rushed to the regular hospital.

Surgeons performed the operations of tracheotomy and incision of the windpipe, and it is believed the woman will survive.

CATTLE RATE CASE HEARING

St. Paul, Oct. 14.—Judge Sanborn, Vandewater and Adams, of the United States circuit court, are today hearing the cattle-rate case.

This action is participated in by nearly all of the western railroads except the Great Northern and Northern Pacific and is an attempt to set aside an order issued by the Interstate Commerce commission about two years ago, making sweeping reductions in the cattle carrying rates from all points west of Chicago and St. Louis.

The order is in effect now and governs schedules in about 6,000 hauling rates from the west.

WRECKAGE ON THE ENGLISH COAST

London, Oct. 14.—The English coast is strewn with wreckage as the result of a storm that has continued for two days. The casualty list is a long one.

This morning the bodies of five seamen from the coasting steamer Cranford were picked up off Hartlepool. It is believed the vessel, which carried a crew of twenty, foundered and that the men were attempting to reach shore in a small boat when they were lost.

Some of the wreckage coming ashore indicates that a sailing ship met a like fate. Life boats from many points were out all last night, and in some instances effected rescues. In other cases they were unable to reach distressed craft.

CRIMINAL MAKES EFFORT AT SUICIDE

Troy, Oct. 14.—"Tim" Sheedy, a notorious burglar and crook, who has spent more than half of his life in prison, attempted suicide here early today by strangling himself with a shoestring. He was found unconscious on the floor shortly before daylight and was resuscitated with difficulty.

Sheedy was captured here late last night while in the act of entering a millionaire's residence. He is wanted in Hartford, Conn., where he escaped from jail a few weeks ago with a 35-year sentence hanging over his head. He was arrested by the local police after a hard fight and admitted his identity.

MUST PAY THE FIRE INSURANCE

San Francisco, Oct. 14.—Verdicts awarding amounts totaling \$96,177 were rendered against two insurance companies yesterday, in the United States circuit court in suits growing out of the refusal of payment on policies held for property destroyed in the earthquake and fire of 1906.

A. Schilling, the plaintiff, in one of the cases against the Alliance Assurance company of London, received a verdict for \$71,434. Against the Commercial Union Assurance company the award was for \$25,943.

CANCER COSTS LIFE OF EARL WILSON

Salt Lake, Oct. 14.—Earl L. Wilson, junior member of the grocery firm of Andrews & Wilson, for the past seven years a well-known merchant, died at 1 o'clock this morning at Holy Cross hospital of cancer of the stomach. Mr. Wilson, who was 39 years of age, had been ill for the past six weeks, but his condition was not considered serious until last Saturday, when he was removed to the hospital. A surgical operation was performed but Mr. Wilson sank gradually. At his bedside when the end came was his brother, Howard F. Wilson, a member of the city detective department.

FALLS FROM SKYSCRAPER

Iron Worker's Legs Are
Driven Through Roof
of Inch Boards

Los Angeles, Oct. 14.—Losing his hold while at work on the tenth floor of a new steel building here today, Charles Umberger, a structural iron worker, fell from a projecting beam onto the floor below and fell nine stories to the roof of a one-story building adjoining. He was still alive three hours after the accident, though he struck with such force that his feet and legs were driven through the inch boards and asphalt composing the roof.

Both arms and legs were fractured in several places and he suffered internal injuries, but his back was not broken, and surgeons say that he has a fighting chance for recovery.

POWERFUL BOMB FOUND

Placed Near American
Embassy on Avenue
Klober, Paris

Paris, Oct. 14.—A powerful bomb was discovered by the police today at the foot of a tree in Avenue Klobber near the American embassy. The officers attribute the attempted outrage to anarchists who sought to put new ginger in to the apparently dying railroad strike.

The embassy is located at 18 Avenue Klobber. The missile was taken to a laboratory, where an examination showed it consisted of 300 grains of cheddite powder and several iron bolts. It was similar to the bomb exploded last night in front of the house at No. 6 Rue de Berri.

GANG OF CAR ROBBERS IS BROKEN UP

By means of a straw hat found in a looted merchandise box car, George Lewis, assistant chief detective of the Union Pacific railroad, has just succeeded in running down a gang of five thieves operating on the Union Pacific and Chicago Northwestern lines for more than two years.

About September 15, a car, loaded with merchandise, was opened in the Ogden yards and found to have been robbed of about twenty suits of clothes, a score or more of overcoats and some smoking jackets. The loss to the railroad company amounted to several hundred dollars. In the same train another car billed to the Brown Brothers of this city was found to have been entered by thieves and nineteen high grade rifles stolen. The seals of neither of the rifles were broken and the robbery was considerable of a mystery to the freight department.

When Detective Lewis was detailed to investigate the robbery, he found in the car of merchandise a straw hat which had been used, and which he, therefore was certain was no part of the original shipment. In this hat he found the name "F. R. Prime," and the head gear had been purchased in Council Bluffs, Iowa. This was the clue which led to the breaking up of the gang.

With the hat in his possession the detective went to Council Bluffs and the owner was soon under lock and key. Mr. Lewis, who has just returned from the east, states that Prime has confessed to the theft and has implicated every other member of the gang. The part of the gang which stole the rifles had their headquarters at Morrison, Ill., and are now under arrest in that city.

Entrance was gained to the cars by use of a jimmy, the doors being lifted up from the bottom and in this manner the seals were left intact.

On motion of District Attorney Nathan J. Harris, in the district court this morning the case of the State against C. P. Howard, charged with issuing a fictitious check, was dismissed and the defendant released.

The district attorney stated that he had been reliably informed that the defendant had heretofore borne a good reputation and that no other charges of a criminal nature ever had been preferred against him, also being true that Howard did not cash the check in question.

Mr. Harris also said that he did not think the man had committed an offense that would justify a penitentiary sentence and that, if the case were dismissed, he would be charged with a misdemeanor and tried for the same in the lower court.

Howard is an elderly man and claims to be a workman. A number of checks similar to the one which he was charged with having drawn in a fictitious name, were found in his possession, but he had not attempted to cash any but the one for \$26.85. He has been held in the city and county jail for about six weeks.

Chicago, Oct. 14.—Mrs. M. L. Satterlee, who at the age of 90, finds her chief diversion in swimming, celebrated her birthday anniversary yesterday.

During the festivities she found time to reveal the mode of living to which she believes her longevity to be due and to give modern women advice on how to grow old gradually.

Here is Mrs. Satterlee's word of advice to the women in their prime today:

"Don't smoke."

"Don't drink."

"Don't wear a hobble skirt, tight corsets or tight shoes."

"Don't play bridge or any other game that makes you worry over it."

HOW TO LIVE TO GOOD OLD AGE

Chicago, Oct. 14.—Four persons were instantly killed when an automobile in which they were riding was struck by an interurban car near Sebring, Ohio, this afternoon.

PHILPUTT REPORT AT CHRISTIAN CONVENTION

Topeka, Kan., Oct. 14.—The annual business session of the national convention of the Christian churches will be held this afternoon. The Philputt report was not disposed of Wednesday, but will be submitted this afternoon as amended. It is now believed that the two important issues

ROOSEVELT EMPHATIC

Says Wall Street and
Tammany Hall Have
Joined Hands

Dunkirk, N. Y., Oct. 14.—Wall Street and Tammany Hall have struck hands," said Theodore Roosevelt, when he opened his campaign for the Republican state ticket here today. He denounced the New York State democracy with great emphasis.

"We are fighting for the rule of the people against the most shameful combination of crooked politics and crooked finance our state has seen since Tweed was driven from power," he declared.

John A. Dix, Democratic candidate for governor, he dismissed with a few words as the "respectable and unimportant figure head of Tammany Hall," to elect him, he said, Wall Street was doing all in its power because it knew him and the people did not.

If elected he would be utterly powerless in the grip of his masters," said the speaker.

The delegates to the convention represented nobody, not even themselves, Mr. Murphy was everything," the colonel said.

ROADS WILL GET HIGHER RATES

Chicago, Oct. 14.—A special dispatch from Washington says:

"The railroads are going to get nearly all they have asked for in the way of freight rate increases, according to the opinions expressed by unofficial authorities on railroad rate regulation who have been watching the investigation being conducted by the Interstate Commerce commission.

"The general feeling is that the commission will effect a compromise between the demands of the roads and the objections of the shippers, with the weight of advantage on the railroad side.

"All possibility of the rate question becoming involved in the issues of the congressional election next month was removed by an announcement made by the commission to the effect that the advance asked by the western roads would be held up until February 1.

"It has been announced that the eastern rate advances similarly would be postponed until that date. In each case the postponement of the date on which the roads wish the higher rates to become effective was obtained by agreement between the commission and the railroad officials.

"In each case the postponement is voluntary on the part of the roads and not a suspension by the commission as provided by the new rate regulation law."

NEW CASE AS TO INCRIMINATION

Washington, Oct. 14.—By a mere chance, this is to be Pacific Coast day in the supreme court. All the cases arranged for argument come from the Pacific coast states.

These include the case of the constitutionality of the McNary act of California and the Johnson murder case at Fort Worden, Washington.

In 1906, the public records of San Francisco were in great part destroyed by the earthquake and fire which nearly wiped out the city. A special session of the legislature was called soon afterwards at which among other legislation of an emergency nature was the McNary act, providing for the establishment and quieting of title to real estate in case of the loss or destruction of public records. The constitutionality of the law arises out of a suit of the American Land company against Louis Zeiss regarding title to two lots, located among the so-called city slip and water lots in San Francisco.

James H. Holt, a gunner in the 10th company, Coast artillery of the army, was convicted on a charge of having murdered Henry E. Johnson, a corporal in the army, at Fort Worden on May 8, 1908. The body of the dead man had been thrown into a furnace at the barracks and cremated. One of the grounds on which Holt brought his case to the supreme court was that he was made to testify against himself in that his superiors in the army required him to try on a certain blouse in an endeavor to incriminate him. Evidence of the way the blouse fitted was submitted at his trial.

HOWARD TO ESCAPE PRISON

On motion of District Attorney Nathan J. Harris, in the district court this morning the case of the State against C. P. Howard, charged with issuing a fictitious check, was dismissed and the defendant released.

The district attorney stated that he had been reliably informed that the defendant had heretofore borne a good reputation and that no other charges of a criminal nature ever had been preferred against him, also being true that Howard did not cash the check in question.

Mr. Harris also said that he did not think the man had committed an offense that would justify a penitentiary sentence and that, if the case were dismissed, he would be charged with a misdemeanor and tried for the same in the lower court.

FOUR IN AN AUTO ARE INSTANTLY KILLED

Cleveland, Oct. 14.—Four persons were instantly killed when an automobile in which they were riding was struck by an interurban car near Sebring, Ohio, this afternoon.

PHILPUTT REPORT AT CHRISTIAN CONVENTION

Topeka, Kan., Oct. 14.—The annual business session of the national convention of the Christian churches will be held this afternoon. The Philputt report was not disposed of Wednesday, but will be submitted this afternoon as amended. It is now believed that the two important issues

INTENSE EXCITEMENT EXISTS IN TIBET

London, Oct. 24.—A news dispatch from Calcutta says intense excitement exists in Tibet. The Chinese authorities at Lhasa arrested the Dalai Lama's representative, A. M. Abbott, and sentenced him to be beheaded. The people were so angry that they spirited away the Abbott. He has been accused of sending supplies to the Delaimala at Darjeeling.

RAILROADS WESTERN PACIFIC TO REACH OUT FOR SOUTHERN CALIFORNIA TRADE

San Francisco, Oct. 14.—The steamers Harvard and Yale which, it was announced some time ago, are to be taken off the Boston-New York run and sent to the Pacific coast, will be operated, according to the Chronicle, between San Francisco and Los Angeles by a combination of interests in which the Western Pacific company is dominant. Daily sailings are to be made.

These steamers, says the Chronicle, "will furnish the Western Pacific with a connecting line to southern California, from which territory it has hitherto been excluded by the refusal of both the Southern Pacific and the Santa Fe to enter into an agreement with the Gould line for an interchange of traffic."

Similar steamers, it is said, later will be placed on the run from San Francisco to Portland and Puget sound cities.

FAVOR BASEBALL PLAYED ON SUNDAY

Kansas City, Mo., Oct. 14.—Declaring there is no harm in Sunday baseball, three priests, one of whom has been recommended to the pope as a successor to Bishop Thomas F. Lillis, at a banquet in Kansas City, Kan., last night approve of the sport on that day as a good way to keep young men from loafing on the streets.

Father Sigismund Pirron, Father John Ward and Father Patrick McEnery, all of Kansas City, Kan., said they had attended ball games played on Sunday during the summer. They not only sanctioned the game because it prevented loafing on the corners, but being beneficial physically and mentally. Father Pirron told the banquet that he had played ball on Sunday with a team organized by the young men of one of his parishes.

Father John Ward, who spoke strongly in favor of the games on the Sabbath, is one of the three whose names have been sent to the pope from which a bishop will be named.

FUNERAL SUNDAY OF A. W. RANKIN

The funeral of Alexander W. Rankin will be held at the Second ward meeting house at 2 p. m. Sunday.

The body will lie in state at the home, 2881 Grant, from 2 to 9 p. m., Saturday, and 10 o'clock to 1:30 on the day of the funeral.

SOCCER FOOTBALL

A game of soccer football will be played tomorrow afternoon between the Salt Lake City soccer team and the Ogden soccer team at Salt Lake City. A great deal of interest is being manifested in Zion in this form of football and J. Wilson, manager of the local team, is endeavoring to awaken a greater interest in the sport in Ogden.

Mr. Wilson contends the game, while just as interesting as Rugby football, has none of the dangerous features which makes football objectionable to many sport lovers.

SENATOR GARDNER INDICTED BY JURY

NEW YORK, Oct. 14.—Frank J. Gardner of Brooklyn, a former state senator, who was arrested in Scranton, Pa., last night charged with attempting bribery of Congressman Otto G. Foelker, also a former state senator, to vote against the anti-race track bills in Albany in 1908, was today indicted by the New York county grand jury on the charge of an attempt to bribe a public officer.

BROKEN LEG IN A COLLEGE FOOTBALL GAME

Chicago, Oct. 14.—The first serious accident of the season at Northwestern university occurred yesterday when Howard Goodsmith, center on the freshman football team, was carried from the field with a broken leg. The fracture will keep him out of football for the rest of the season.

The freshmen were lined up against the Varsity in scrimmage and it was in trying to stop a play through the line that Goodsmith went down under the players.

Two other accidents occurred to the freshmen players, and although both were less seriously they will result in keeping two other good men out of the game for some time.

TAMMANY SANDWICHES FOR THE BREADLINE

New York, Oct. 14.—An over-supply of sandwiches, which a Tammany delegation was unable to eat on a train returning from a political meeting upstate, yesterday supplied a horde of hungry patrons of the "breadline" with a welcome treat today. When Charles Wilco, sergeant-at-arms of the state committee, found 2,000 substan-

IS DROWNED IN A WELL

Companions Unable to
Rescue a Man From
Watery Grave

Albuquerque, N. M., Oct. 14.—While hanging from a rope sixty feet from the surface of an artesian well here yesterday, William Thropp was drowned while his fellow workmen stood about the well's mouth powerless to assist him.

Thropp had been lowered to assist in placing the casing of the well which was lowered after him. Before the casing reached him it collapsed, filling the well above his head with an impenetrable mass of wreckage. Before the debris could be removed the water rose above his head. Thropp talked calmly to the men attempting to rescue him until the water rose above his mouth.

LAJOIE HAS MADE A HIT

His Record at St. Louis
Has Started a Big
Scandal

Chicago, Oct. 14.—President B. B. Johnson of the American league, has given Jack O'Connor, manager of the St. Louis Americans, and John L. Corridon, third baseman, twenty-four hours in which to make a report of the Sunday game with Cleveland at St. Louis, in which Lajoie of Cleveland, is credited with eight hits in two games.

"O'Connor has failed to report, according to instructions," said President Johnson, "and I propose to drive him out of organized baseball if he doesn't comply with my request within twenty-four hours. Third Baseman John L. Corridon, who is said to have favored Lajoie, has failed to report at this office for a hearing. If he is not here by noon tomorrow I'll suspend him indefinitely."

MENDICANTS IN POLICE COURT

James Conner pleaded guilty in police court this morning to the charge of mendicancy and was fined \$10 or ten days. As Conner's begging had netted him the amount of his fine, he was committed to the city prison to serve his sentence.

J. A. Whiting, Joseph Hickson and J. A. Farlin in quick succession, pleaded guilty to the charge of being unlawfully drunk and were fined \$5 or five days each.

George Monroe was given ten days in prison for begging on the streets and C. J. Vance was given a like sentence for being a vagrant.

The \$5 bond of E. R. Procter, arrested for being drunk, was forfeited, Procter not putting in an appearance for trial.

E. Barlow forfeited a \$5 bond for riding a bicycle on the sidewalk.

FOREIGNERS IN BALLOON CONTEST

St. Louis, Oct. 14.—Balloons from four nations who are to take part in the international balloon race from this city Monday, October 17, for the James Gordon Bennett trophy, have arrived here.

Monday's international meet will be the second in St. Louis, the first being in October, 1907. The trophy then was won by Oscar Eriksbo of Germany, who has since been killed in a balloon accident.

Among the aeronauts who are now in St. Louis are:

France—Walter de Munn, Rheims; Jacques Faure, Ernest G. Schuerlock, Pierre Gasner, Alfred Le Blanc, Paris.

Switzerland—Lieutenant Colonel Schaeck, Captain E. Messmer, C. A. Bally, Lieutenant E. Lauscher, Lieutenant A. Davall, and Paul, Armbruster, Berne.

Germany—Captain Hugo von Abercron, August Blacketter, Hans Gerliche and Lieutenant Vogt.

United States—Cortland Field Bishop, Allan R. Hawley, August Post, New York City; and Lieutenant Frank S. Lahn, Washington, D. C.

The James Gordon Bennett trophy now is held by Alfred Mix, an American.

The German Aeronauts brought three balloons with them, the Germania, the Dusseldorf and the Hamburg, the latter two of which were used in the international race in 1907. The aerostats are expected to be on the grounds by Sunday. Inflation will begin early Monday.

NEW IRRIGATION PLAN

Castle Dale, Oct. 13.—A new system of irrigation is planned by E. T. Merrill of Salt Lake, W. T. Chamberlain and P. H. Lund of Denver, who recently secured 10,000 acres of land in the Green River valley. The old system of gravity irrigation is to be superseded by the power system. A central pumping plant will conduct water from Green river into a main pipe. This pipe will have auxiliary pipes running among the trees at intervals of 20 feet. The auxiliary pipes will have small branch pipes, which will have outlets near each tree. In this way it is figured that irrigation can be carried on with much less water and with far greater success than under the old system.

RENEWED ACTIVITY.

Salina, Oct. 13.—The prospects look favorable for some mining activity in this section in the near future. It is said on good authority that Ball's mine is to be made to produce profitably soon. The mine has long since proved to have good ore, and some milling and a little shipping has been done, but the property has only been worked on a small scale. Since the visit of Mr. Chipman of New York it is learned that he has ordered a force of men to be put on, a dwelling and a boarding house to be built, and other things are to be done in order to get out what there is and to find more.

DIRECT STEAMERS FROM LISBON TO NEW YORK

Washington, Oct. 14.—Direct steamship communication between the United States and Portugal is engaging the attention of this government and, according to a report from Consul General Lourenco Ayres de Lison, through the efforts of the Sociedade Propaganda de Portugal, a ministerial decree soon will be issued asking for proposals from steamship companies for establishing regular communication between Lisbon and New York.

Recent political disturbances, according to the consul's report, will not alter materially the movement of commerce between this nation and Portugal.

WORLD'S MARKETS

NEW YORK, Oct. 14.—Stocks started broadly upward today with some animation. The market showed great breadth as well as activity. There was a gain of 1-3/4 in Erie first, International Harvester 1-5/8, Missouri Pacific, Southern Railway preferred, Colorado Fuel and American Locomotive, Southern Pacific, St. Paul, Kansas and Texas, Atchafalpa and Western Maryland of large fractions.

The market started after the first few minutes of business. Trade took profits but there was sufficient buying to prevent prices receding. The market later became firmer. Pacific Coast gained 7/8, Union Pacific, Southern Railway, Kansas City, Southern American Smelting and Mackay company's large fractions.

Two other accidents occurred to the freshmen players, and although both were less seriously they will result in keeping two other good men out of the game for some time.

TAMMANY SANDWICHES FOR THE BREADLINE

New York, Oct. 14.—An over-supply of sandwiches, which a Tammany delegation was unable to eat on a train returning from a political meeting upstate, yesterday supplied a horde of hungry patrons of the "breadline" with a welcome treat today. When Charles Wilco, sergeant-at-arms of the state committee, found 2,000 substan-
